

## Countron AT

Countron AT is newly introduced by UCHIDA, who is a pretty well-known Paper counter manufacturer all over the world. Excellent twin-blade counting system enables Countron AT to count thick board without any corner bent, which is useful for finished items as Greeting Card, Post Card and etc.

Countron AT is capable of counting up to 400g/m<sup>2</sup> paper, which may be so attractive for any card producers counting and separating cards and etc. on each batch. New counting system prevents any damages on corner and realizes high-speed counting up to 1,500 sheets per minute with tab insertion.

Counting finished items means saving double counting process before and after cutting and Inserting tab tape into finished items means vain labor to separate items every batch, which are directly relating to saving costs, time and keeping accurate numbers.

Twin Blade counting system

Countable up to 400g/m<sup>2</sup> paper

Minimum card size: 100W x 100Lmm

<b>Type</b>	Standalone type
<b>Counting system</b>	Twin blade counting system
<b>Counting speed</b>	0 to 1,500 sheets per minute
<b>Countable paper quality</b>	80g/m <sup>2</sup> – 400g/m <sup>2</sup> (approx. 0.08mm – 0.4mm)
<b>Paper size</b>	Max. 546W x 788Dmm (Standard) Min. 100W x 100Dmm (with option)
<b>Paper stacking height</b>	Max. 300mm
<b>Tab tape insertion</b>	Every 2 to 1,000 sheets
<b>Height of work table</b>	760mm or 860mm (Prefixed in factory)
<b>Power source</b>	110,115, 220, 230, 240 VAC, 50/60Hz
<b>Dimensions</b>	900W x 1,085D x 1,400Hmm
<b>Net weight</b>	260 kg
<b>Option</b>	Air table, Large table, small table ETC.
