

LAMINADORA F350 A/F350B/F350C

LAMINADORA F350D AUTOMATICA

Classical design; many patents;

- According to infrared induction to feed paper; Auto-stop for no paper; avoid film rolling on the rollers;
- Patent of auto-disconnecting; reduce the manual labors;
- Patent of perforating technology; papers auto slitting;
- Patent of Convenient fast position guide technology;
- Spindle for cold lamination; adjustable tension;
- Digital control for speed; adjustable for pressure of lamination; meet different demands;
- Patent of anti-curler with 18 level and cooling fan;
- 1 inch and 3 inch film corn; the largest diameter of film roll reaches 220mm;
- LCD; it's convenient for setting and operation;

Technology Parameter:

Model	F350A	F350B	F350C	F350D
Paper Width (mm)	130-350	130-350	130-350	130-330
Paper Length (mm)	110-700	110-700	110-700	150-700
Paper Thickness (g/m ²)	80-400	80-400	80-400	100-300
Laminate Speed (m/h)	240	240	240	240
Feed Way	Manual	Manual	Manual	Auto
Display	LCD	LCD	LCD	LCD
Max. Film Roller	210	210	210	210
Auto Slit	/	/	√	√
Manual Slit	√	/	/	/
