

## GT AUTOMATIC PUNCHING MACHINE FOR OFFICE

GT office punching machine is specially used for punching papers in copy center and quick print shop. The paper feed table moves up each cycle driven by a stepping motor which accurately controls the amount of sheets fed into the machine. The amount of sheets is adjusted using a touch screen. The paper is taken into the punching die by conveyers and then be aligned from three sides at the same time ready for punching. After punched the paper is taken into the paper collector in order automatically. Both the paper size and paper margin can be adjusted. Various punching dies can be offered to punch different holes.

**Trait**

- 1、Punching dies can be changed in 30 seconds by pulling out the die.
- 2、Paper size can be adjusted automatically by computer
- 3、Computer diagnostic system replaces manual diagnosis
- 4、Compact structure, taking less space. Can be moved easily and quickly
- 5、Can punch PP sheets
- 6、Suitable for different kinds of binding way

**Technical parameters**

Max. paper size	355x304mm
Min. paper size	140x140mm
Max. Punchingthickness	3-17 pages of 80g paper
Suitable paper	60-230g/m <sup>2</sup>
Max. Speed	70 times/Min.
Paper collecting style	automatic
Power supply	AC220/1ph /50Hz/ 0.55kw
Machine dimension (L×W×H)	1250×720×1250mm
Net Weight	280KG
